which never again will be closed.

of Six-Year-Old Girl. Justice Seabury is expected to hand

iown a decision to-day as to whether Mrs. Carmela Manuelli was mistaken in dentifying a six-year-old girl as her own child, Louisa, as is contended by Mrs. losefina La Cascio, the girl's present

The argument over the custody of the child was heard by Justice Seabury in his chambers in habeas corpus proceedings brought by Mrs. Manuelli. Mrs. Manuelli's story was that her hus-

band left her three years ago with three little girls to care for. The task was too great for her. She took Louisa to the Catholic Home Bureau, with the understanding that she was to have the child back when her condition made it possible for her properly to care for Louisa. She visited the child every month until last July, when she learned that Louisa had been taken from the home into the family of Mrs. La Cascio. For severa months the mother searched for her girl, finally locating her at the La Cascio home, where she made several futile efforts to see her child. Then she brought the habeas corpus proceedings. Mrs. Manuelli brought one of her other

children with her to combat the state ment that she was not the mother of outsa, and as the two children stood side by side it was seen that there was a strong resemblance. Mr. La Casclo is half owner of the Atlantic Iron Works, in Brooklyn, and a nam in comfortable circumstances. Counsel for his wife said that the family was able to give the child a good home and the assurance of good training. The lawyer said it would be crue! to take the child from Mrs. La Casclo, who had grown to love her as one of her own. ide by side it was seen that there was a

GOOSE FORCED TO GET FAT Health Board Hears of Fowl Tied Down and Fed.

Weird noises emanating from a cellar on the East Side were called to the attention of the health authorities yesterday in a written complaint. The writer of the communication gave it as his opin ion that a goose was subjected to enforced feeding while fastened down by its feet in front of a hot furnace. This method, it was declared, resulted

in a very fat goose and excellent paté There was no description of the kind of

noises, but the racket was said to be audible for some distance. The writer gave but neglected to give the number of the
